Executive Summary

The Opportunity

\$165B market by 2034. AI-powered training with unique lab environments.

The Problem

Course creation takes 40-200 hours. 44% of skills changing by 2028. No hands-on lab platforms exist for technical training.

Our Solution

AI generates complete courses in under 1 hour. Integrated VSCode, Jupyter, IntelliJ lab environments. All-in-one platform replacing 3-5 tools.

Business Model

Hybrid SaaS + Enterprise License. \$49M ARR target by Year 5. 73% recurring revenue. 81% gross margin. 10.5:1 LTV:CAC.

Competitive Advantage

Only platform with integrated lab environments. AI-native architecture. 18+ month technical moat. GDPR/CCPA compliant.

The Ask

\$2M Seed Round at \$8M pre-money. 18-month runway to Series A. Target: 50 customers, \$500K ARR, SOC 2 certification.

AI-Powered Corporate Training Platform

Transforming How Organizations Create and Deliver Learning

Series Seed Investment Opportunity

Slide 2: The Problem

\$200B+ Market with Broken Tools

Organizations Face Critical Challenges:

1. Content Creation Bottleneck

- Average course takes 40-200 hours to create
- Subject matter experts aren't instructional designers
- Content becomes outdated before it's published

2. Skills Gap Crisis

- 44% of workplace skills will change by 2028
- 50% of employees need reskilling
- Training can't keep pace with change

3. Technical Training is Especially Broken

- No hands-on lab environments in existing platforms
- Developers learn best by doing, not watching
- Setting up training environments costs \$50K+/year

4. Tool Fragmentation

- Companies buy 3-5 separate tools (LMS + authoring + labs)
 - Average spend: \$150K+ across disconnected systems
 - Poor user experience, data silos
-

Slide 3: The Solution

Course Creator: AI-First Training Platform

One Platform. Complete Solution.

Key Differentiators:

- 60-80% faster course creation with AI
 - Only platform with integrated lab environments
 - All-in-one replaces 3-5 tools
 - Enterprise-ready with full RBAC & compliance
-

Slide 4: Product Demo

See It In Action

AI Course Generation (60 seconds to create a course)

- Input: "Create a Python fundamentals course for beginners"
- AI generates:
- Complete curriculum outline
- Module content with explanations
- Interactive quizzes
- Hands-on lab exercises
- Output: Publish-ready course

Hands-On Lab Environments

- Students get their own isolated Docker container
 - Multiple IDE options (VSCode, Jupyter, IntelliJ)
 - Real coding environment, not simulations
 - Progress auto-saved, code auto-graded
-

RAG-Powered AI Assistant

- Answers student questions in context
- Personalized learning recommendations
- Knowledge graph tracks concept relationships

Slide 13: Why Now?

Perfect Timing for Course Creator

1. AI Inflection Point

- Generative AI makes course creation 10x faster
- ChatGPT normalized AI in enterprise
- Organizations actively seeking AI solutions

2. Skills Crisis Accelerating

- 44% of skills changing by 2028
- Companies can't train fast enough
- \$200B market growing at 20%+ CAGR

3. Technical Training Gap

- Developer shortage: 1.4M unfilled jobs by 2028
- No good hands-on training platforms exist
- Massive pain point = massive opportunity

4. Legacy Vendor Vulnerability

- Cornerstone, SAP: Old architecture, slow innovation
- Opportunity to leapfrog with AI-native platform
- Similar to Salesforce disrupting Siebel

5. We're Ready

- Product built and working
 - Architecture is sound and scalable
 - Team ready to execute
-

Slide 14: Vision

The Future of Corporate Learning

Our Vision

"Every employee learns in the flow of work, with AI-generated content personalized to their needs, practicing in real environments that match their job."

5-Year Goals

- Category Leader in AI-powered corporate training
 - 2,000+ customers across 20+ countries
 - \$50M+ ARR with path to \$100M+
 - Platform Ecosystem with 100+ integrations
 - Acquisition Target or IPO Path
-

Long-Term Opportunity

- Corporate training: \$200B \$800B by 2035
- AI in education: \$6B \$300B by 2035

4.2 Buyer Personas

Persona 1: VP of Learning & Development

"Strategic Sarah"

- Title: VP of L&D, Chief Learning Officer
- Reports to: CHRO or CEO
- Goals: Transform learning culture, demonstrate ROI, reduce costs
- Pains: Budget pressure, content creation backlog, measuring impact
- Motivators: Innovation, recognition, career advancement
- Buying Behavior: Strategic, needs executive approval, values relationships

How We Win: Strategic partnership positioning, ROI calculators, executive briefings

Persona 2: Learning Technology Manager

"Technical Tim"

- Title: Learning Technology Manager, LMS Administrator
- Reports to: VP of L&D
- Goals: Streamline tech stack, improve learner experience, reduce admin burden
- Pains: Multiple systems, integration issues, support tickets
- Motivators: Efficiency, new technology, solving problems
- Buying Behavior: Technical evaluation, POC-driven, community research

How We Win: Technical demos, POC programs, developer documentation

Persona 3: Training Manager

"Content Creator Chris"

- Title: Training Manager, Instructional Designer
- Reports to: VP of L&D
- Goals: Create effective content faster, improve engagement, reduce workload
- Pains: Time-consuming content creation, outdated materials, no coding ability
- Motivators: Creativity, learner success, work-life balance
- Buying Behavior: Product-led, trial-driven, peer recommendations

How We Win: Free trials, content creation demos, case studies

9.2 Contingency Plans

Scenario A: Slow Enterprise Adoption

Trigger: <10 enterprise deals by Month 12

Response:

- Double down on SMB/mid-market
- Increase product-led growth investment
- Reduce enterprise sales team
- Lower CAC targets

Scenario B: Cash Runway Concerns

Trigger: <12 months runway

Response:

- Reduce hiring plan by 30%
- Focus on profitable customers
- Bridge financing round
- Explore strategic partnerships

Scenario C: Major Competitor Entry

Trigger: Top 3 player launches competitive product

Response:

- Accelerate lab environment moat
- Price competitively
- Focus on customer success
- Explore acquisition interest

Course Creator Platform - Dual Revenue Model Projections

Document Version: 1.0

Date: November 29, 2025

Purpose: Five-year revenue projections for SaaS and Enterprise License models

Executive Summary

This document presents revenue projections for two distinct go-to-market strategies:

Model	Year 5 Revenue	Characteristics
Model A: SaaS Only	\$45M ARR	Recurring, predictable, h...
Model B: Enterprise Licen...	\$38M	Higher upfront, lumpy, lo...
Model C: Hybrid (Recommen...	\$52M	Best of both, diversified...

Recommendation: Pursue a Hybrid Model with SaaS as primary (70%) and Enterprise License as secondary (30%) to maximize total revenue while maintaining predictable recurring revenue for valuation purposes.

Recommended Strategy: Hybrid Model

Phase 1: Years 1-2 (Foundation)

Focus: Enterprise deals for cash flow + SaaS for scale

- Lead with 3-5 enterprise deals to fund operations
- Build SaaS self-serve motion in parallel
- Use enterprise deals for case studies
- Target: 65% Enterprise / 35% SaaS mix

Phase 2: Years 3-4 (Growth)

Focus: Accelerate SaaS, maintain enterprise

- Scale SaaS sales team
- Enterprise becomes selective (larger deals only)
- Build partner channel for both models
- Target: 35% Enterprise / 65% SaaS mix

Phase 3: Year 5+ (Scale)

Focus: SaaS dominance, enterprise as premium tier

- SaaS drives majority of growth
- Enterprise for strategic accounts only
- Consider enterprise as competitive moat
- Target: 25% Enterprise / 75% SaaS mix

Appendix: Key Assumptions

SaaS Assumptions

- Monthly churn: 1.0% (Y1) 0.6% (Y5)
- Net revenue retention: 95% 125%

- Sales cycle: 30-60 days (SMB), 60-90 days (Enterprise)
- ACV growth: 5-10% annually through upsell

Enterprise License Assumptions

- Sales cycle: 120-180 days
- Win rate: 15% 30%
- Annual maintenance renewal: 90%+
- Services margin: 40-50%

Market Assumptions

- Corporate LMS market: \$72B by 2034 (CAGR 19.65%)
 - AI in education: \$92B by 2033 (CAGR 38%)
 - 44% of skills changing by 2028
 - 50% of employees need reskilling
